

## I AM A WRITER

It would be my journey through life... like most  
That I would learn about in school,  
Telling myself, I will hire someone to write my memoir  
A ghost writer  
And after three trials all three got caught up in the story –  
And I would find myself picking the pen.

## I AM A FILM MAKER

When I found myself  
Standing there asking myself:  
Is this real ?  
Because this is something you only see in a movie,  
And it has all the components of a movie.

## I AM AN ADVOCATE

It would be my learning  
From a kid as well as  
The Ten Commandments  
That seemed to struck me  
As well as those who fought for the rights of others before me  
That would become my raw models  
Inspiring me to speak up.
