Recovering

Eurydice

a healing story

About Recovering Eurydice

Recovering Eurydice is a work-in-progress, multi-media performance piece exploring the process of recovery created and performed by Song & Story Alchemist, **ellen cherry**. In the mythological tale of Eurydice, she is taken to Hades, abruptly and then rescued. ellen cherry mines her personal journey of recovering from a violent car wreck. Through songs, storytelling, drawings, dance, video, and shadow play, ellen cherry tells a story about rescuing the only person she can: *herself*. www.ellencherry.com/recovering
