

JORDAN LAWSON

JORDAN@ARTBYJLAW.COM | WWW.ARTBYJLAW.COM

I explore contemporary themes and popular culture through digital design. My ideas are transformed into print illustration, multi-media design, and painting. My process places a great emphasis on research, in order to allow thorough planning of the work. Without this, the content lacks originality and ingenuity.

My unique combination of subject matter and aesthetic execution sets my style apart from that of others. My art is not created to simply fulfill what seems to be marketable to a certain crowd, but rather captures the uniqueness and individuality of people, life, and experiences. I am Jordan Lawson, the Multi-Disciplinary Artist. Enjoy the experience.
