Work experience

- Regularly been visiting a remote village in Uttarakhand, India for the past 10 years. Occasionally helped the locals in farming, taking care of cattle (even helped deliver a baby calf) and other daily work. I recently published my own book, *The Road Not Taken*, a photographic body of work based on my experience in the village.
- Worked for Savills India as a Real Estate photographer (ongoing)

Additions

- Started working at a Design/Advertising studio to enhance my other skills besides Photography. Working on multiple projects, handling real-time clients, etc.
- Getting more Real Estate Photography Projects with Savills Real Estate; that require travelling to different cities/states in India.
- Taking more Commercial Photography Projects with clothing brands such as House of Tara.
