

Sean J's love for music and technology along with his years of experience have brought him success and accolades from peers and audiences alike. Taking the soul of Kaytranada, the musicality of DJ Jazzy Jeff and energy of ENFERNO, Sean J brings turntablist skill and drum machine musicianship to the stage. Sean J strives to find new ways to push boundaries between various genres, keeping the dance floor moving, and change perceptions on what to expect out of a skilled DJ.

Sean J has built a following full of dancers and music lovers faithful to his unique blend of various styles of music. Always exploring cutting edge DJ tech to keep his sets engaging and to push the limits of the DJ culture, Sean J has partnered with the D.C. area's nationally respected instructors at the Beat Refinery to share his knowledge of DJing and Music Production with the next generation of performers.
